GÖRKEM AKBULUT

Ankara, Türkiye | akbulut.gorkem@metu.edu.tr | linkedin.com/in/gorkem-akbulutt | github.com/GioGorkem

PROFESSIONAL SUMMARY

Highly analytical Second-Year Computer Engineering student at Middle East Technical University (METU) with a **3.73 GPA (High Honor, Department Rank: 14/137)** and a nationwide rank of **206th in YKS (Top 0.007%)**. Demonstrated problem-solving skills and practical experience in Python, C/C++ programming, AI model evaluation, and undergraduate laboratory assistance. Adept at leveraging strong mathematical foundations and analytical thinking to contribute effectively to software engineering environments and data-driven projects.

EDUCATION

Middle East Technical University (METU) — Ankara, Türkiye **2024 – Present**

B.S. in Computer Engineering *GPA: 3.73 / 4.00 (High Honor)*

- **Academic Standing:** Department Rank **14/137** | Spring 2026 Term GPA: **3.83/4.00**
- **Relevant Coursework:** Data Structures (CENG213), Discrete Computational Structures (CENG223), C Programming (CENG140), Intro to Computer Engineering Concepts (CENG111), Differential Equations (MATH219), Linear Algebra (MATH260), Electrical Circuits (EE281), Calculus I–II (MATH119/120).
- **Honors:** Ranked **206th out of 3+ Million candidates nationwide** in the Higher Education Institutions Exam (YKS - Numerical Field), 2024.

Yahya Akel Science High School — Mersin, Türkiye **Graduated 2024**

High School Diploma *High Honor*

EXPERIENCE

Middle East Technical University (İŞKUR Program) — Ankara, Türkiye **Nov 2025 – May 2026**

Student Assistant (CENG240 - Python Programming Laboratory)

- Assisted undergraduate engineering students with core Python programming concepts, data structures, and algorithmic debugging.
- Proctored laboratory examinations, ensuring rigorous academic integrity and structured evaluation standards.

Freelance AI Data Annotator & Evaluator — Remote **Late 2025 – July 2026**

Outlier AI, Invisible Technologies, Aether

- Conducted quality evaluations of large language model responses across multi-turn reasoning, coding, and mathematical accuracy.
- Performed strict JSON schema validation, audio task evaluations, and safety alignment checks to improve model reliability.

TECHNICAL SKILLS

- **Languages:** Python, C, C++ | **Systems & Tools:** Linux, Git, GitHub, Vim, LaTeX, VS Code
- **Core Competencies:** Data Structures & Algorithms, Dynamic Memory Management, Object-Oriented Programming, AI Evaluation

EXTRACURRICULAR ACTIVITIES

METU ACM (Association for Computing Machinery) Student Chapter | *Sponsorship Team Member (2025 – 2026)*

Engaged in corporate outreach and partnership coordination to secure sponsorships for university-wide technology and programming summits.
